Introduction to Farm Accounts (A11629)

Short Title: Introduction to Farm Accounts
Faculty Science and Computing
Department Science
Cluster Business
Author JGERAGHTY
Credits 5

Level: Introductory

Description of Module / Aims

This module will enable the student to understand accounting terminology, use accounting methods and record financial and physical data for a farm business. The module will also explore sources of credit, and enable students to appraise investment decisions.

Programmes

AGRI -0002 BSc in Agriculture (WD_SAGUL_D)

1 / 1 / M

Indicative Content

- Basics of farm accounting
- Collating information used for end of year farm accounts
- Recording farm receipts and farm payments
- Compiling end of year farm accounts
- Agricultural credit and farm investment

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Record and maintain financial records for the farm business.
2. Record farm assets and livestock details.
3. Review the profit and loss account and the farm balance sheet.
4. Outline sources and types of farm credit.
5. Discuss factors involved in making farm investment decisions.
6. Use financial software to manage records and cash flow for a sample farm.
7. Use financial software to prepare a profit and loss account and balance sheet.

Learning and Teaching Methods

- Lectures.
- Practical instruction.
- Use of accounting software.

Assessment Methods

	Weighing	Outcomes Assessed
Final Written Examination	60%	1,2,3,4,5
Continuous Assessment	40%	
<i>In-Class Assessment</i>	25%	6
<i>In-Class Assessment</i>	15%	7

Assessment Criteria

- <40%:** Very little knowledge and understanding of the subject matter. Unable to carry out critical thinking or basic computation tasks.
- 40%-49%:** Demonstrate a limited knowledge of the subject matter. May have some problems with critical thinking and problem-solving. Adequate computation ability.
- 50%-59%:** Demonstrate satisfactory general knowledge of the main issues within the subject. Good problem-solving ability and computation skills.
- 60%-69%:** Demonstrate skilled and sound knowledge of the subject matter. Show ability to analyse and logically discuss financial topics effectively. Good critical thinking and a high level of competence in calculation tasks.
- 70%-100%:** Demonstrate comprehensive knowledge and understanding of all learning outcomes and ability to evaluate and relate topics that overlap in key subject matter areas. Adept at calculation tasks.

Note:

- In addition to the normal regulations, a minimum of 35% must be achieved in both the final exam and continuous assessment components of the module. In cases where continuous assessment has a practical component attendance of at least 75% in the practicals is mandatory.
