Cell Biology and Biochemistry (A07896)

Short Title: Cell Biology and Biochemistry
Faculty Science and Computing
Department Science
Cluster Biology
Author ROMA HONY
Credits 5

Level: Introductory

Description of Module / Aims

The aim of this module is to develop an understanding of the fundamentals of cell biology and biochemistry.

Programmes

BIOL-0002	BSc (Common Entry) (WD_SSCIE_D)	1 / 2 / M
BIOL-0002	BSc (Hons) in Agricultural Science (WD_SAGRI_B)	1 / 2 / M
BIOL-0002	BSc (Hons) in Food Science and Innovation (WD_SFSIN_B)	1 / 2 / M
BIOL-0002	BSc (Hons) in Molecular Biology with Biopharmaceutical Science (WD_SMBIO_B)	1 / 2 / M
BIOL-0002	BSc (Hons) in Pharmaceutical Science (WD_SPHSC_B)	1 / 2 / M
BIOL-0002	BSc (Hons) in Physics for Modern Technology (WD_KPHTTE_B)	1 / 2 / M
BIOL-0002	BSc (Hons) in Science (Common Entry) (WD_SSCCM_B)	1 / 2 / M
BIOL-0002	BSc in Agricultural Science (WD_SAGRI_D)	1 / 2 / M
BIOL-0002	BSc in Food Science with Business (WD_SFDSC_D)	1 / 2 / M
BIOL-0002	BSc in Molecular Biology with Biopharmaceutical Science (WD_SMBIO_D)	1 / 2 / M
BIOL-0002	BSc in Pharmaceutical Science (WD_SPHSC_D)	1 / 2 / M

Indicative Content

- Structure, properties, occurrence and roles of biological macro-molecules
- The ultrastructure of prokaryotic and eukaryotic cells and the functions and interrelation of various cell organelles
- The structure and function of cell membranes (transport, cell signalling/communication)
- Enzymatic structure and factors affecting enzyme activity
- An introduction to microbial metabolism

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Distinguish between the four classes of biological macromolecules.
2. Illustrate the structural features of prokaryotic and eukaryotic cells and explain their functions.
3. Outline the importance of enzymes and the various factors affecting enzyme activity.
4. Complete and examine qualitative and quantitative biochemical assays.
5. Construct and interpret graphs using experimental data.

Learning and Teaching Methods

- Cell biology and biochemistry is delivered in a multi-modal approach.
- The module consists of lectures, laboratory practicals and online tutorials (on or off site).

- The teaching strategy is to adopt a blended learning approach.
- Lecture sessions are delivered using a flipped classroom style.
- Resource material is made available to the student prior to the lecture session.
- The student completes e-activities in the form of quizzes which are designed pre and post lecture sessions.
- Audio and video files of module content are provided to cater for the variety of learner types (class size < 50).
- Laboratory practicals and tutorial sessions are linked.
- Pre-practical quizzes are used as a formative learning method and these can be completed during tutorial sessions on or off-site.
- The entire above are delivered through Moodle using blended and e-learning.

Assessment Methods

	Weighing	Outcomes Assessed
Final Written Examination	50%	1,2,3,5
Continuous Assessment	50%	4,5
<i>Practical</i>	50%	4,5

Assessment Criteria

- <40%:** No understanding of basic cell biology and biochemistry. Unable to carry out critical thinking or practical skills.
- 40%-49%:** Demonstrate a limited knowledge of basic cell biology and biochemistry. May have some difficulty with critical thinking and problem solving. Adequate practical skills.
- 50%-59%:** A good understanding of cell biology and biochemistry with demonstration of some critical thinking and problem solving skills. Good practical skills.
- 60%-69%:** In addition to the above, good critical thinking skills and showing a high level of competence and efficiency in theoretical and practical components.
- 70%-100%:** A highly developed and extensive understanding of cell biology and biochemistry. Excellent technical ability in carrying out and reporting on practical tasks.

Learning Modes

Learning Mode	F/T Hours	P/T Hours
Lecture	36	
Practical	24	
Independent Learning	75	

Essential Material

- "Cell Biology and Biochemistry module Moodle page." <http://moodle.wit.ie>
- Madigan, M.T., J.M. Martinko, D.H. Buckley, D.A. Stahl and T. Brock. *_Brock Biology of Microorganisms_*. 14th ed. Essex, UK: Pearson Education Ltd., 2015.

Requested Resources

- EQUIPMENT: Blackboard
- Room Type: Biology Lab

- Lecture Room: Loose Seated
- EQUIPMENT: MAC PCs
