Faculty Science and Computing
Department Science
Cluster Business
Author RODOWD
Credits 5

Level: Intermediate

Description of Module / Aims

The aim of this module is to introduce the student to the principles and techniques of developing off-farm enterprises, from concept stage to small business creation.

Programmes

AGRI-0014 BSc in Agriculture (WD_SAGUL_D)

3 / 5 / M

Indicative Content

- The entrepreneurial process: profile of an entrepreneur; intrapreneurship; small business ownership
- Idea generation; creativity and innovation strategies
- Establishing the enterprise: legal structures & start-up procedures; gaining a competitive advantage; mission statement & SWOT analysis
- Management issues: choosing a location and premises; sources of finance; staffing issues
- Managing an enterprise: effective leadership; managerial decision making
- The business plan: writing the plan; funding proposal; detailed projections
- Pitching the business idea: presenting the business idea for funding purposes

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Analyse the entrepreneurial process and apply creative and innovation strategies to explore entrepreneurial opportunities.
2. Analyse and discuss the necessary skills to develop and manage a successful small business.
3. Analyse and discuss the problems faced by small enterprises from sourcing finance to choosing a location for their business.
4. Design and write a successful business plan.
5. Communicate the business idea effectively and pitch the idea for funding purposes.
6. Differentiate and apply theories of leadership and decision making in a small business context.
7. Illustrate comprehensively how to establish an enterprise including legal structures, start-up procedures and regulatory issues.
