Video Production (A13227)

Short Title:	Video Production	
Faculty	Science and Computing	
Department	Computing and Mathematics	
Cluster	Media Production	
Author	BONEILL	
Credits	5	Level: Introductory

Description of Module / Aims

This module provides the student with the opportunity to apply his/her knowledge of the production pipeline. The student will learn the skills required to shoot and capture footage. Industry standard video editing software is extensively explored in the assembly, editing and application of effects to video footage and audio. The student gains an introduction to post production software, to edit and enhance a completed video asset.

Programmes

COMP -0596	BSc (Hons) in Creative Computing (WD_KCRC0_B)	2 / 4 / M
COMP -0596	BSc in Multimedia Applications Development (WD_KMULA_D)	2 / 4 / M

Indicative Content

- Shoot and capture video assets
- Video editing: Transitions;Effects;Edits;Motions;Titles;Animations
- Audio: acquire; Edit;Mix;Effects
- Post Production: Colour;Presets;Animation of objects and text
- Toolset for the distortion of objects in post production
- Build and manipulate 3d objects using advanced editing techniques in post production

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Demonstrate an understanding of video principles.
2. Apply sympathetic audio tracks to video.
3. Demonstrate extensive use of industry standard video editing software.
4. Apply animation of objects and text utilizing effects, and pre-sets using post production software.
5. Construct basic post production cinematic effects for the purpose of branding.
6. Complete a short trailer, advert or instructional video for delivery on web, mobile or social media.

Learning and Teaching Methods

- This module will be delivered using two hours of computer-based lectures, along with two hours of computer-based practicals each week.
- Equipped with Adobe CC suite and data projector.
- Use of video editing suite; sound equipment;cameras;tripods;green screen;lighting.

Assessment Methods

	Weighing	Outcomes Assessed
Continuous Assessment	100%	1,2,3,4,5,6
Portfolio	100%	1,2,3,4,5,6

Assessment Criteria

<40%: Unable to interpret and demonstrate key concepts of video production.

40%-49%: Be able to interpret and demonstrate key concepts of video production.

50%-59%: Ability to demonstrate key concepts of video production and ability to discover and integrate related knowledge in other knowledge domains.

60%-69%: Be able to solve problems within the video production domain by experimenting with the appropriate skills and tools.

70%-100%: All the above to an excellent level. Be able to analyse and design solutions to a high standard for a range of both complex and unforeseen problems through the use and modification of appropriate skills and tools.

Learning Modes

Learning Mode	F/T Hours	P/T Hours
Practical	48	
Independent Learning	87	

Supplementary Material

- Fridsma, L. and B. Gyncild. _Adobe After Effects CC Classroom in a Book_. 1st ed. NY: Adobe Press, 2016.
- Maxim, J. _Adobe Premiere Pro CC Classroom in a Book_. 1st ed. NY: Adobe Press, 2015.
