Introduction to Radio Broadcasting and Presenting (A14667)

Short Title:	Radio Broadcasting	
Faculty	Science and Computing	
Department	Computing and Mathematics	
Cluster	Media Production	
Author	ROCONNOR	
Credits	10	Level: Introductory

Description of Module / Aims

The module is a broad, practical introduction to writing for radio and to practical skills of radio presentation including news reading, editing and recording skills. It includes an overview of the Irish radio industry, programming, journalism and music policy and legal considerations for broadcasters.

Programmes

Certificate in Introduction to Radio Broadcast Journalism & Presenting (WD_BRADO_SP)	1 / 1 / M
---	-----------

Indicative Content

- Overview of the Irish radio landscape: history, structures and organisation
- Introduction to the work of a professional radio journalist and presenter
- Introduction to radio broadcast legislation and BAI codes for presenters and journalists.
- Introduction to practical skills of radio broadcasting and presenting including news reading; interviewing for audio; scriptwriting for audio; journalistic recording and editing; skills of on-air reading and speech presentation; skills of on-air programme presenting.

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Plan scripts and running orders for a radio broadcast.
2. Record and edit audio material for radio broadcast.
3. Present speech content in a radio setting.
4. Apply legal and ethical guidelines relating to broadcast media.
5. Appraise the role of the radio journalist and presenter within the Irish radio industry.

Learning and Teaching Methods

- The module will be delivered using a combination of lectures and practical sessions including practical seminars conducted by experienced industry practitioners on their experience of various roles in the industry.
- The practical sessions will take place in a working commercial radio broadcasting environment and will include group and individual work.
- All students are required to complete a Reflective Journal in which they document and contextualise their developing practical skills and theoretical knowledge.
- The programme does include a significant component of independent learning most notably where students work, individually and in groups, through a structured, progressive sequence of practical assignments that are aligned with the module learning outcomes.

Assessment Methods

	Weighing	Outcomes Assessed
Continuous Assessment	100%	1,2,3,4,5
<i>Project</i>	90%	1,2,3,4
<i>Essay</i>	10%	5

Assessment Criteria

<40%: Unable to research, prepare and present radio content. Unable to use the appropriate tools for recording and editing. Unable to demonstrate any understanding of the broadcast domain.

40%-49%: Be able to research, prepare and present simple radio content and use the appropriate tools.

50%-59%: In addition, be able to research, prepare and present more complex content that demonstrate a deeper understand of the broadcast domain. Demonstrate an ability to discover and integrate related knowledge in other knowledge domains. Strict adherence to legal and ethical guidelines

60%-69%: All of the above, plus be able to add features to a complex radio content not presented in the module by experimenting with the appropriate skills and tools.

70%-100%: All the above to an excellent level. Be able to analyse and design sophisticated broadcast content to a high standard for a range of both complex and unforeseen requirements through the use and modification of appropriate skills and tools.
