Agricultural Science Industrial Placement (A08428)

Short Title: Agri Sci Industrial Placement
Faculty Science and Computing
Department Science
Cluster Placement and Projects
Author SWALSH
Credits 30

Level: Intermediate

Description of Module / Aims

This module will allow learners to apply and develop their skills in the agri-food industry. Students will be placed for work experience for a minimum of 15 weeks during semester two of third year. The industrial placement will be organised by WIT and monitored by the employer and WIT staff, with the student keeping a reflective work log. The placement is designed to meet the needs of industry, while providing the student with a broader skills-base. It is envisaged that the practical element of employment will complement the course content and help develop skills that are essential in today's work environment. The completion of a reflective work log will develop the student's ability to engage in reflective learning.

Programmes

AGRI -0097 BSc (Hons) in Agricultural Science (WD_SAGRI_B)

3 / 6 / E

Indicative Content

- Industrial placement in an agri-food company for a minimum of 15 weeks, with exposure to a range of laboratory, processing and business activities
- Exposure to a range of laboratory techniques working to Standard Operating Procedures (SOPs) in a Good Laboratory Practice (GLP) context with the ability to carry out work following instructions, according to these SOPs
- Preparation of reports, both oral and written, on work carried out over the period of placement
- Maintenance of a work log of placement, critical evaluation and reflection on both the experience itself, as well as the professional development achieved
- Guidelines for the student, Institute and employers on the aims, objectives, and expectations of the module (learning agreement/guidelines).

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Construct a professional CV and prepare for interview to secure placement.
2. Appraise the aims, expectations and objectives of the employer, Institute and student to the successful completion of placement.
3. Operate independently and/or as part of a team towards the set objectives of the industrial enterprise and relate effectively to co-workers and supervisors.
4. Apply, under supervision, their acquired knowledge through application to practice and working in a regulatory environment.
5. Practise safely, agri-food industry related skills and employ good environmental practices those associated with good laboratory practice.
6. Appraise, reflect and report on personal, professional and technical achievements.
7. Communicate their activities and assessment of the industrial enterprise in a professional manner.

Learning and Teaching Methods

- Practical learning experience from industrial placement.
- Weekly log of activity.
- Working and relating with other co-workers and clients.

Assessment Methods

	Weighing	Outcomes Assessed
Continuous Assessment	100%	
<i>Portfolio</i>	Pass/Fail	1,2,3,4,5,6,7

Assessment Criteria

Fail: Student fails to undertake or complete placement to a satisfactory level and/or fails to submit the assessments and documents related to the learning outcomes.

Pass: Minimum period of at least 15 weeks placement completed, satisfactory Supervisors Evaluation Report submitted, and assessments and documents related to the learning outcomes, all to an acceptable standard and submitted within deadlines.

Learning Modes

Learning Mode	F/T Hours	P/T Hours
Placement	810
