

German Level B1.3

Computing and Mathematics

May, 2026

Short Title:	German Level B1.3		
Faculty	Humanities		
Department	Computing and Mathematics		
Cluster	Humanities		
Author			
Credits	5	Level:	Advanced

Description of Module / Aims

The module aims to: give the student an understanding of the main points of clear standard input on familiar matters regularly encountered in work, school, leisure etc; enable the student to deal with most situations likely to arise whilst travelling in an area where the language is spoken; train the student to produce connected, detailed texts on topics which are familiar or of personal interest; enable the student to describe experiences, dreams, hopes and ambitions and give reasons and explanations for opinions and plans; facilitate the student in obtaining and analysing information about cultural beliefs, values and behaviour.

Programmes

GERM-0026 BSc (Hons) in Software Systems Development (WD_KCSDV_B)

4 / 2 /

Indicative Content

- Contexts / themes that will be used to achieve the learning outcomes for this level may include:
 - a. Lifestyle trends regarding health, fitness, nutrition , shopping
 - b. Pro and Contra taking sides on current issues relevant to learners lives and justifying viewpoints
 - c. Planning activities/trips
 - d. Describing recent films, books, music and cultural events
- Linguistic structures to be covered at this level will include:
 - a. Consolidation of grammatical structures to include: perfect tense, adjectives (including comparative and superlative), conjunctions and subordinate clauses, definite and indefinite articles in the nominative and accusative
 - b. Prepositions (accusative and dative)
 - c. Relative pronouns (nominative and accusative)
 - d. Reflexive verbs (accusative and dative)
 - e. Modal verbs, mgen and lassen
 - f. Verbs with separable and inseperable prefixes
 - g. Passive (Introduction)

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Spoken Production and Interaction.
2. The learner is expected to be able to: enter unprepared into and maintain conversation on familiar topics, express personal opinions and greetings and exchange information on topics that are familiar, of personal interest or pertinent to everyday life e.g. family, hobbies, work, travel and current events; give a prepared presentation on a familiar topic within his / her field which is clear enough to be followed without difficulty most of the time and in which the main points are explained with reasonable precision; make his / her opinions and reactions understood as regards solutions to problems or practical questions of where to go, what to do, how to organise an event (e.g. an outing).
3. Writing
4. The learner is expected to be able to: write accounts of experiences, describing feelings and reactions in connected text; write very brief reports to a standard conventionalised format which pass on routine factual information and state reasons for actions.
5. Listening
6. The learner is expected to be able to: follow much of what is said around him / her on general topics provided interlocutors avoid very idiomatic usage and articulate clearly; follow a talk within his / her own field provided the subject matter is familiar and the presentation straightforward and clearly structured.
7. Reading
8. The learner is expected to be able to: identify the main themes in clearly signalled argumentative texts; deduce the meaning of occasional unknown words from the context and grasp sentence meaning provided the topic discussed is familiar.
9. Intercultural Competence
10. The learner is expected to be able to: behave in accordance with the expectations of the other culture in most everyday situations both private and professional.

Learning and Teaching Methods

- Interactive seminars will be the main teaching approach. A variety of media will be used in the teaching process (traditional print materials, audio and video material, CALL programmes and online language learning resources). The course will be characterised by a high level of student participation in both classroom activities and self-directed learning activities outside the classroom.
